

IN THIS ISSUE: REPORT FROM GRF'S 2021 SUMMIT ON SECURITY & THIRD-PARTY RISK

Nearly 1000 members and guests registered to attend Global Resilience Federation's Summit on Security & Third-Party Risk on October 7-8. Twenty-one keynote and concurrent sessions during the two day event covered many aspects of supply chain and third party risk challenges.

LUNCH KEYNOTE ADDRESS

Lunch featured Jim Rosenthal, CEO of BlueVoyant who shared key insights and findings from their 2021 Global Insights Report. The report covered multiple industries and regions, and examined the response to cybersecurity in the supply chain. It also provided recommendations on how to manage the supply chain to protect the vendor ecosystem.

OPENING KEYNOTE : FUTURE OF THIRD-PARTY AND SUPPLY CHAIN SECURITY

The keynote address, given by representatives from KPMG and Johnson & Johnson, focused on the future of third party and supply chain security. The speakers discussed changes in supply chain models as a result of the pandemic, which has introduced new risks. Speakers offered recommendations to secure the supply chain as a result of these amplified risks.

GLOBAL RESILIENCE FEDERATION— UPDATES AND COMING ATTRACTIONS

BRC: ALL-HAZARD SHARING

GRF introduced a new multi-sector community this year to foster sharing and cooperation regarding significant all-hazard incidents, threats, vulnerabilities and other factors that impact business and operational resilience. Business Resilience Council ([BRC](#)) publishes daily and weekly reports and provides alerts on physical, geopolitical and significant cyber threats and incidents. Hundreds of organizations have already joined to support development of playbooks and an operational resilience framework (ORF) to support recovery of critical services from disruptive events. To join this effort, please complete a [membership application](#), or contact [Chris Denning](#).

EASE: SHARING WITH DENMARK

The Energy Analytic Security Exchange ([EASE](#)) is an information sharing community of electrical, gas and other utilities in the U.S. and Europe. Sharing topics include malware, vulnerabilities in IT and OT systems, and nation-state threat actors that target ICS systems. [Energi-CERT](#), the electrical information sharing organization of Denmark, is the newest member of EASE. It brings deep technical expertise, and has agreed to bidirectional information sharing. GRF is working on technical integrations with Energi-CERT to benefit EASE members and other communities in the GRF network. Reach out to [Tim Chase](#) for more information.

K12 SIX: COMMUNITY BUILDER OF THE YEAR

K12 Security Information Exchange (K12 SIX) was established last year as the first and only information sharing community focused specifically on securing U.S. K-12 education IT networks. Because of the rapid growth of this community and the supports it provides, K12 SIX was voted the [Community Builder of the Year](#) and was recently featured on NBC's The Today Show. This is a unique information sharing community dedicated to maturing cybersecurity for the sector, and enabling sharing of threats, incidents, vulnerabilities, and security practices. Join us at [K12 SIX](#), or contact [Doug Levin](#) for information.

GRF FOUNDATION

GRF established the GRF Foundation, a non-profit, 501c3 with focus on cybersecurity and information sharing awareness, and research supporting collective defense. The foundation is pursuing grants, corporate sponsorship, and private donors that support improvements to security and resilience against threats and acts that could significantly impact vital services and the general safety of the public. Programs include support for public and private schools in the United States, small businesses, and other industry sectors that need assistance in improving their cyber risk maturity. For more information contact [Edie Allyn-Page](#).

Contact info@grf.org with any general questions or visit [@grfederation](#) on Twitter or [Global Resilience Federation](#) on LinkedIn

LS-ISAO: AUTOMATION

Legal Services Information Sharing and Analysis Organization ([LS-ISAO](#)) was established in 2015 to strengthen defenses within the legal community. It has since grown to nearly 150 members of all sizes, worldwide. LS-ISAO has been actively sharing threat indicators and incidents, and teaming up for collective defense against emerging threats. Members can receive enriched intelligence in GRF's threat intelligence platform and receive indicators of compromise directly through automation. Contact [Jaquar Harris](#) for more information.

PROSIX: CISO ROUNDTABLE

The Professional Services Security Information Exchange ([ProSIX](#)) was built for consulting firms of all types. KPMG and other top firms have joined together to help protect their proprietary information and the clients they serve through this collective defense effort. Threat calls provide a forum to share vulnerabilities and current incidents and collaborate on mitigation strategies. Members are now also participating in CISO roundtables to address the changing threat environment and discuss required strategic investments. Contact [Richie Acuna](#) for more information.

UPCOMING CALLS/MEETINGS

4 November 2021

LS-ISAO Annual Gathering - topics include Outside Counsel Guidance and Security Questionnaire Response; Ransomware: To Pay or Not to Pay w/ AON; Cybersecurity and Infrastructure Security Agency: Challenges and Opportunities; and Black Hills Information Security: Clouds... Clouds and Clowns are Evil

5 November 2021, 3-5 PM ET

K12 SIX Essential Protections Workshop. Contact [Doug Levin](#) for info.

10 November 2021, 2 PM

BRC meeting - U.S. Secret Service Network of Cyber Fraud Task Forces, Emphasis on New England Cyber Fraud Task Force w/ Don McGrail – Supervising Agent Boston; 2021/2022 Winter Weather Forecast w/ NOAA / NWS Speaker; U.S. Domestic & International Events Impacting Business Resilience w/ GRF analysts. Open to interested non-members. For invitation contact [Chris Denning](#).

17 November 2021, 12 -1 PM

K12 SIX - Membership Meeting. Contact [Doug Levin](#) for info.

17 November 2021, 2 PM

BRC meeting - open to interested non-members. For invitation contact [Chris Denning](#).

27 January 2022

ProSIX CISO Roundtable - topics include Significant Threats and Events, Strategic Control Considerations, Best Practices for Board Engagement, and Operational Resilience. Contact [Mark Orsj](#) for details.
