IN THIS ISSUE: Last Chance for an Austin Hotel Room & More

6th Annual Summit on Security & Third-Party Risk
Austin, TX   Oct 11-12, 2023

Last Week to Book a Room

This is the last week to book a hotel room for the Summit on Security & Third-Party Risk. Join us in Austin, Texas October 11-12 to hear from 50 different practitioners as they discuss third-party, cyber and AI risk management and best practices.

Speakers come from many different sectors and companies, including Campbell Soup Company, CISA, Genpact, Google, JnJ, KPMG, Mastercard, Raymond James, S&P Global, Stoel Rives, AES Corporation, and Truist, among others.

Register and book a room by September 9 to stay on property for the sixth annual conference. After September 9, the group rate will no longer be available and the rooms may be released to the public or to another event.

LS-ISAO Member Gathering

Law firm members, join your peers on October 11, 2023 at the LS-ISAO Annual Gathering in Austin, Texas. The Annual Gathering will have multiple speakers presenting on security challenges to law firms. The sessions and networking will take place during the GRF Summit on Security & Third-Party Risk, and LS-ISAO members are able to sit through sessions at both events. Contact membership@ls-isao.com with questions or register for both events by signing up for the Summit here. *Members should contact membership@ls-isao.com for the event discount code.

OT-ISAC Team Presents at CSA Event

The Cybersecurity Agency of Singapore (CSA) recently hosted the Operational Technology Cybersecurity Expert Panel Forum. The event featured John Lee, Managing Director of OT-ISAC and Edgard Capdevielle, CEO of Nozomi Networks as they presented "Threat Intel Sharing in the OT Community."
GRF Staff Join ManuSec Committee

GRF CEO Mark Orsi and Manufacturing ISAC director Tim Chase have joined the steering committee for the 8th ManuSec USA Summit taking place October 3-4 in Chicago. Learn more

GRF and KPMG Publish "The Leadership Guide to Securing AI"

Artificial Intelligence is critical to the future success and health of companies across industries. To empower security leaders, Global Resilience Federation convened a working group and asked KPMG to facilitate meetings and interviews with AI and security practitioners from more than 20 leading companies, think tanks, academic institutions, and industry organizations. The output of that working group—The Leadership Guide to Securing AI—will be of great value to organizations exploring this groundbreaking technology. Download the guide

The leadership guide to securing AI

ORF Representative at TPRA Conference

GRF's Brian Katula will speak on the GRF Operational Resilience Framework at the Third Party Risk Association's Virtual Conference on September 27. Learn more

K12 SIX Webinar on Use of AI

Join K12 SIX and Microsoft on September 12 for the second in a series of informational webinars focused on cybersecurity preparations for the new school year.

With Corey Lee, Microsoft Chief Zero Trust Architect, the team will cover important topics like understanding the AI threat landscape, how Microsoft defends itself and customers using AI, and how schools can harness the future of AI and cybersecurity in education. Learn more

Zero Networks Becomes a GRF Premier Partner

GRF is pleased to announce a new partnership with Zero Networks. GRF engages partners committed to security and information sharing. To that end, Zero Networks provides robust network security for enterprises of any size. Zero Networks Segment™ is automated, agentless, MFA-enabled microsegmentation that effectively segments all your network assets, preventing lateral movement and thwarting ransomware attacks. Zero Networks Connect™ is advanced ZTNA for seamless remote connectivity without compromising on speed or performance. Learn more about Zero Networks here.
